On Saturday, March 28, CMS announced an expansion of its accelerated and advance payment program for Medicare participating health care providers and suppliers, to ensure they have the resources needed to combat the 2019 Novel Coronavirus (COVID-19). This program expansion, which includes changes from the recently enacted Coronavirus Aid, Relief, and Economic Security (CARES) Act, is one way that CMS is working to lessen the financial hardships of providers facing extraordinary challenges related to the COVID-19 pandemic, and ensures the nation’s providers can focus on patient care.

Accelerated and advance Medicare payments provide emergency funding and addresses cash flow issues based on historical payments when there is disruption in claims submission and/or claims processing. These expedited payments are typically offered in natural disasters to accelerate cash flow to the impacted health care providers and suppliers. In this situation, CMS is expanding the program for all Medicare providers throughout the country during the public health emergency related to COVID-19. The payments can be requested by hospitals, doctors, durable medical equipment suppliers and other Medicare Part A and Part B providers and suppliers. To qualify for accelerated or advance payments, the provider or supplier must:

- Have billed Medicare for claims within 180 days immediately prior to the date of signature on the provider’s/supplier’s request form,
- Not be in bankruptcy,
- Not be under active medical review or program integrity investigation, and
- Not have any outstanding delinquent Medicare overpayments.

Medicare will start accepting and processing the Accelerated/Advance Payment Requests immediately. CMS anticipates that the payments will be issued within seven days of the provider’s request.

An informational fact sheet on the accelerated/advance payment process and how to submit a request can be found here.
